- › Ensures comfortable working conditions for several hours

Technical data:

- Microphone sensitivity: -50 ± 2 dB (0db = 1v/Pa, 1 kHz)
- Dynamic range: $90 \pm$ db
- Frequency response: 100 – 10 000 Hz
- Electrical impedance: $150 \pm 15\%$ Ω
- High temperature resistance: $+ 60^{\circ}\text{C} \pm 3^{\circ}\text{C}$
- Low temperature resistance: $-20^{\circ}\text{C} \pm 3^{\circ}\text{C}$
- Acoustic protection level: 105 db
- Weight (with USB cable): mono 113 g/ duo 129 g

Professional headset for Unified Communications optimized for Microsoft Lync with the answer/end a call function. Plug & Play system facilitates using the headset just after connecting it to the computer. It has a functional USB cable with answer/end call (with MS Lync), turning volume up/down and microphone mute keys. Robust and ergonomic design guarantees comfortable working conditions for several hours. Microphone with excellent noise cancellation improves the quality of the conversation. MS2 is a functional mobile solution, supporting the needs of an individual business user as well as Call/Contact Center environments.
